

BioTime 6.0

Web-Based Time & Attendance Management Software

BioTime 6.0 is an innovative web-based time attendance software which provides a stable communication for devices through LAN/WAN/Wi-Fi/GPRS/3G/4G. Users can access to the software anywhere by their web browser to remotely manage thousands of T&A terminals under complex network (WLAN).

It features the new launched Basic Payroll Management solution that can eliminate excessive workload in calculating employee hours and wages. An Automatic Synchronization function is available to automatically synchronize data between devices and server among the same "Area." With its new user-friendly UI, managing timetable, shifting schedule, and generating attendance report have become easily managed.

Features:

Web-Based Time Attendance Software

Users can access the centralized system anywhere by their web browser to remotely manage thousands of T&A terminals under complex network (WLAN).

Payroll Management

Basic payroll function can eliminate errors in the payroll process and reduce excessive effort in calculating employee hours, wages, and tax withholdings.

Auto-Synchronization of Face, Fingerprint, and Card

Automatically synchronizing the data between devices and server among the same "Area" to ensure the informations are updated.

Employee Self-Service

Access login is provided for each employees to check their attendance. Employees can apply for online leave to be approved by the manager or admin.

Multiple Admin Privilege

Multiple admin can be set to manage different privilege in the software. Admin will get a list of employee's attendance including the number of lates and absences.

Flexible Shift Scheduling

Software administrator can assign flexible schedules to the employees to manage their attendance without any restriction of time including weekend and holiday overtime setting.

Automatic E-mail Alerts

E-mail notifications are sent to employees for attendance alerts in case of late, early leave, and absence.

Multi-languages

Supports English and Arabic language.

Real Time Data Transmission

The data from the inter-regional terminals can be monitored in real time.

Attendance Calculation & Reports

The attendance reports are calculated easily and can be exported in CSV, PDF, and XLS format.

Software Specifications

System Architecture	Server/Browser
Device Capacity	500 Single Server
Database	MS SQL Server 2005/2008 (Recommend) / MySQL/ Oracle 10g/ Oracle 11g
Supported OS	Windows 7/8/8.1/Server 2003/2008 (32/64)
Suggested Browsers	IE 11+/Firefox 27+/Chrome 33+
Monitor Resolution	1024 x 768 or Above

Hardware Requirements

Device	100	200	500+
CPU	Intel i3 Quad Core	Intel i5 Magny-Cours	Intel i7 Magny-Cours
RAM	4G	8G	16G
Storage	Available space of 100G or above. (We recommend using NTFS hard disk partition as the software installation directory.)
